STONE GUARD

Industrial Brushware's **StoneGuard** is a simple but effective way to help protect your vehicle from rocks, stones & gravel flicking up and causing damage to your vehicle whilst towing, it can be easily fitted onto your vehicle and its unique design allows for superior airflow and reduced co-efficient drag, delivering increased performance and fuel savings over solid rubber guarding.

Our **StoneGuard** brush guarding is made by inserting a 12mm metal back strip brush into a specially designed Aluminium carrier that has a large 30mm surface area for fitting and as an added feature our design allows for simple / easy replacement of brush strips if required.

StoneGuard is available in 3 pre-cut standard lengths: 1200mm, 2000mm and 2400mm with trim lengths starting at 200mm thru to 450mm.

Trim Lengths

- 200mm
- 250mm
- 300mm
- 350mm
- 400mm
- 450mm

Designed & Manufactured in Australia by Industrial Brushware.
Our **StoneGuard** is available thru any of our outlets across Australia
or via our E-store.
